

# Sustainable Restaurant Association

## Sustainable Eating Out

*“ It’s more important than ever for foodservice businesses to understand and improve the sustainability of their operations. The Sustainable Restaurant Association (SRA) supports 7,500 outlets in the UK, from Michelin-starred restaurants to large café and pub groups. The scale and diversity of SRA members demonstrates that sustainability is here to stay, no matter the style or scale of business.*

*Organic veg, fruit, dairy and meat receive top marks in our rating and we welcome the Organic Action Plan’s initiative to grow the UK’s organic market. We do not underestimate the challenges that organic procurement presents to the hospitality sector, but pioneers like Café St Honore in Edinburgh, Daylesford, and Riverford’s Field Kitchen show what can be achieved, and we look forward to working with the sector in this game changing project. “*

**Pete Hemmingway, Community Manager, Sustainable Restaurant Association**
