

THE ORGANIC RESEARCH CENTRE
Elm Farm, Hamstead Marshall, Newbury, RG20 0HR UK

SUSTAINABILITY RESEARCHER (G6)
Temporary position, 6 months from September 2018

REF: RES1802
Salary range: £23,827 - £26,000

The Organic Research Centre is looking to appoint a Sustainability Researcher to help analyse and review evidence on the impact of livestock and organic farms on the environment and sustainability. The work will take place within the ORC's Environment, Sustainability and Health programme and will focus on several projects, including the Horizon 2020-funded project [iSAGE](#) and the Global Food Security Programme funded project [SEEGSLIP](#). This position will be based at least in part at the ORC's Elm Farm site near Newbury in Berkshire.

Candidates should possess a BSc (at least 2.1) in an environmental science-related discipline. Some research experience in sustainability data analysis is essential, as is an intermediate to advanced knowledge of MS Excel. Experience and knowledge of Life Cycle Assessment (LCA) is desirable along with experience and knowledge of sustainability assessment approaches.

Experience and knowledge of the European ruminant-livestock sector and an interest in the environment and organic farming is desirable. Good communication skills, both oral and written are essential. An ability to develop own ideas and to implement own approaches is essential.

Further details about ORC can be found on our website www.organicresearchcentre.com. The application form (**we only accept applications on this form**) can be obtained from <http://bit.ly/orcworkwithus>. Please quote reference RES1802.

The closing date for applications is **10:00 on Monday 30th July 2018**
Interviews will be held at ORC, Elm Farm on **Wednesday 8th August 2018**
